## ADVANCED AGM BATTERIES

A Full Range of AGM Batteries with Front and Top Terminal Connections

Custom Battery Boxes  
Hand Laid Fiberglass  
& Stainless Hardware

All Energy1  
Battery Products  
Are Compliant  
With:

DOT 49CFR173.159(9)  
(i) & (ii)

UL Approved

ISO 9000/14000

## KEY FEATURES

- Up to 40% space savings
- Up to 25% weight savings
- Advanced AGM construction-no water levels to fill or corrosion to clean
- Proprietary plate construction delivers maximum cranking amps
- Flexible design-can be installed in any orientation except inverted
- Long life, +800 cycles @ 50% discharge, +500 cycles @ 80% discharge
- Low internal resistance-provides for very high discharge and recharge rates
- Flame retardant (UL 94 V0) PC-ABS plastic case and cover
- 3 Step terminal design to ensure leak free operation
- Remote venting for enclosed cabinet applications
- Integral handles ensures ease of handling
- Approved as non-hazardous cargo for ground, sea, and air transportation
